
In aeternum

<In aeternum>
Use-Case Specification: <Use help function>

Version <1.1>

[Note: The following template is provided for use with the Rational Unified Process. Text enclosed in square brackets and displayed in blue italics (style=InfoBlue) is included to provide guidance to the author and should be deleted before publishing the document. A paragraph entered following this style will automatically be set to normal (style=Body Text).]

[To customize automatic fields in Microsoft Word (which display a gray background when selected), select File>Properties and replace the Title, Subject and Company fields with the appropriate information for this document. After closing the dialog, automatic fields may be updated throughout the document by selecting Edit>Select All (or Ctrl-A) and pressing F9, or simply click on the field and press F9. This must be done separately for Headers and Footers. Alt-F9 will toggle between displaying the field names and the field contents. See Word help for more information on working with fields.]

10     Then a popup should open
11     And I should get more Information about Registration
12
13  Scenario: Use help function at
14     Given I am logged in as Emma
15     And I am on the general Information page
16     When I click on the button "Help"
17     Then a popup should open
18     And I should get background Information about burial methods
19

```

3. Special Requirements

3.1 Usability

Because our target group are older people, the help button is there to conduce the ease of use. It is easy to find and help the user, if he doesn't know what to do.

3.2 Support

The information at the help function should be up to date. It is important to make it easy to edit it.

4. Preconditions

4.1 User clicked Button

The User must click the Button "help" to call the help function

5. Postconditions

None

6. Extension Points

None
