Use-Case Specification: Register

1. Use-Case Name

1.1 Brief Description

This use case is one of the often used ones, because it create a new user account.

2. Flow of Events

2.1 Basic Flow

Mockup:

The mockup shows a web browser window with the address bar displaying 'inaternum'. The page has a navigation bar with links for 'Home', 'Information', and 'Blog'. A sidebar on the left indicates 'Step 1' with a right-pointing arrow. The main content area contains a registration form with the following fields and labels:

- 'Please enter your name here' with a text input field labeled 'Name'.
- 'Please enter your birthday here' with a text input field labeled 'DD.MM.YYYY'.
- 'Please enter your email-adress here' with a text input field labeled 'E-Mail@example.com'.
- 'Please enter a password, so you can see your information next time' with a password input field (masked with dots) and an information icon (i).
- 'Please enter your password for a second time' with a second password input field (masked with dots).

Below the form is a large circular button with a right-pointing arrow and the text 'Next Step'. At the bottom of the page is a footer labeled 'Impressum'. A 'HELP!' dialog box is shown on the right, titled 'Message Title' and 'HELP!'. It contains a paragraph of Lorem Ipsum text and an 'OK' button. A dotted line connects the 'HELP!' button in the form to the dialog box.

3. Special Requirements

3.1 Usability

Because our target group are older people, we will make the register very user-friendly. There should be a “Help”-Button and also the description for the input fields should be easy to understand for everyone.

4. Preconditions

4.1 Entering Register-Form

A visitor of the website can enter the register form by click a button (label “Start” and a “+” icon” on the first page he see after calling our page.

5. Postconditions

5.1 Save account

The database must save all information(Name, Birthday, Password) for the new account.

5.2 Go on

After saving the account information the user will be redirected to a new page, where he can insert more information.

6. Extension Points

(tbd)

6.1 <Name of Extension Point>
