OK

## 3. Special Requirements

### 3.1 Usability

Because our target group are older people, we will make the first step very user-friendly. There should be a “Help”-Button and also the description for the input fields should be easy to understand for everyone.

## 4. Preconditions

The user must pass through step 1 (Register) to do step 2 (answer general information).

## 5. Postconditions

### 5.1 Save information

The database must save all information(burial method, burial place, tombstone, laying out) for the new account.

### 5.2 Go on

After saving the first general information the user will be redirected to a new page, where he can insert more information.

## 6. Extension Points

(tbd)

### 6.1 <Name of Extension Point>
