
In aeternum

<In aeternum>
Use-Case Specification: <Create guest list>

Version <1.1>

[Note: The following template is provided for use with the Rational Unified Process. Text enclosed in square brackets and displayed in blue italics (style=InfoBlue) is included to provide guidance to the author and should be deleted before publishing the document. A paragraph entered following this style will automatically be set to normal (style=Body Text).]

[To customize automatic fields in Microsoft Word (which display a gray background when selected), select File>Properties and replace the Title, Subject and Company fields with the appropriate information for this document. After closing the dialog, automatic fields may be updated throughout the document by selecting Edit>Select All (or Ctrl-A) and pressing F9, or simply click on the field and press F9. This must be done separately for Headers and Footers. Alt-F9 will toggle between displaying the field names and the field contents. See Word help for more information on working with fields.]

Use-Case Specification: <Create guest list>

1. Use-Case Name

1.1 Brief Description

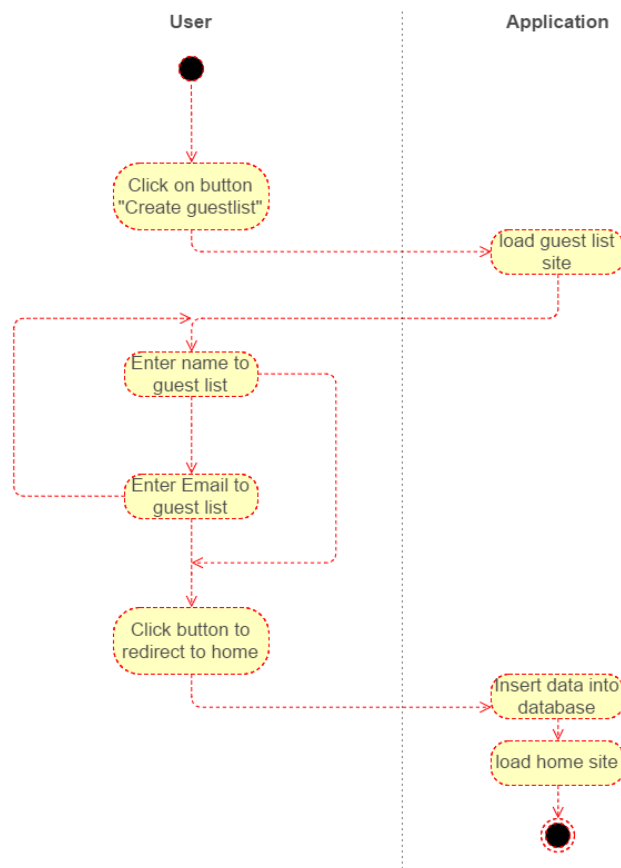

As a User I can create a guest list to decide, which people I want at my burial.

1.2 Function Points

Create guest list	Count	Simple	Average	Complex	FTR/RET	DET	Points	Function p
Number of User Input (EI)	2	1	0	0	0	0	2	6
Number of User Outputs (EO)	2	1	0	0	0	0	0	8
Number of User Inquiries (EQ)	6	1	0	0	0	0	2	18
Number of Files (ILF)	2	1	0	0	0	0	0	14
Number of External Interfaces (EIF)	0	1	0	0	0	0	0	0

2. Flow of Events

2.1 Basic Flow

<document identifier>	

2.2 Mockup

The mockup shows a web browser window with the address bar displaying `https://www.inaeternum.de/cheer`. The page title is "Page 1". A user is logged in as "YYY", with a "Logout" button. The main content area has a large left arrow and two sections: "Create a guest list" and "Create a black list". Each section contains a table with three rows of "Name" and "Email@example.com" entries. A question mark icon is located to the right of the "Create a black list" section.

2.3 Feature File

```

1  Feature: Create guest list
2      In order to value
3      As a User
4      I want to create a guest list
5
6
7  Background:
8      Given I am logged in as Paul
9      And clicked on the button "create guest list"
10
11 Scenario: Create new guest list
12     Given I am logged in as Paul
13     When I type in a new name "Tim" for guest list
14     And I type in a new Email "Tim@example.com" for this name "Tim"
15     Then the list should contain the name "tim"
16     And the list should contain the Email "Tim@example.com"
17
18 Scenario: Create new black list
19     Given I am logged in as Paul
20     When I type in a new name "Marie" for black list
21     And I type in a new Email "Marie@example.com" for this name "Marie"
22     Then the list should contain the name "Marie"
23     And the list should contain the Email "Marie@example.com"
24
25 Scenario: Edit a guest list
26     Given I am logged in as Paul
27     And I have created a guest list before
28     When I type in a new name "Lisa"
29     Then the list should contain the name "Lisa"
30     And no Email for the name "Lisa"
31
32 Scenario: Delete from a guest list
33     Given I am logged in as Paul
34     And I have created a guest list before
35     When I delete a name "Tim" from the list
36     Then the name "Tim" should be deleted from the list
37     And the Email "Tim@example.com" should be deleted from the list
38

```

3. Special Requirements

3.1 Usability

Because our target group are older people, we will make the register very user-friendly. There should be a "Help"-Button and also the description for the input fields should be easy to understand for everyone.

<In aeternum>	Version: <1.1>
Use-Case Specification: <Create guest list>	Date: 06.06.2017
<document identifier>	

3.2 Email People

Because the relatives may not know all persons from the list, there should be an option to enter an E-Mail Address of the people.

3.3 Black List

When you don't know, who you want on your burial you can also create a list of people you don't want to see on your burial.

4. Preconditions

4.1 Person must be a User

The Person must be logged in or have registered before to use the option to create a guest list.

4.2 User clicked Button

The User must click the Button "create a guest list" for creating a guest list.

5. Postconditions

none

6. Extension Points

none
